Creation of Myself

The Spirit Of Life All Are Born With. Of Freedom, Joy, Thankfulness and Kindness

My Vision is very Clear for our future, for the World to continue. Would it surprise you to hear, my vision is very peaceful, inspirationally powerful, and instinctively powerful, freely on Goodness for all. What else would fix destruction? To Remember Goodness back to Earth...Uniquely being Yourselves, with me happily, a new world. It begins with the foundation to a worldly plan.

I want to create Heaven on Earth, by building it on Earth. Could you imagine what this will be like? To build a Property that is of the simplest, truest qualities, charming and

freely embracing with love--is all of what life ever was meant to be, and will be again. This has been a part of you from the beginning of time, yet long ago forgotten. It is Strongly of Love, of Freedom, of Wisdom and Stability. Peace is naturally of Great Unconditional Love. This Includes most dearly of my heart, the only truth there is, I love you, you are my children, my animals too.

For all over this expansive property, of many purposes; you will find an Adorable, Charming, Homey, Healing, Peaceful, Cozy; Joyful Home of Heaven remembered within you, and felt, no matter where you live in the world. To remember all of this is to Heal your hearts and souls freely, by My Love. I want to build by the sea or an Island off the Coast of Northern Maine or Canada for worldly reasons. My Heart is attached to you all; therefor my love will cascade worldly to all countries.

*I call it **"The Heart Beat of the World"** It is of love, simplicity, freedom and care of all life, it is creativity flowing in art and music, simplicity of joy that the children bring, it is full of purpose for LIFE in new/old ways of eating for example that are globally sound healthy and delicious. Yes Vegetarian. With all wonderful Earthly Gifts to be re-explore, as Normal for Life Everlasting; as was always was meant to be.*

To move Old energy off Earth by truth, freeing discontentment from the ground, is to remember our history, for what was truthfully happening in all events at all times. This takes talents that come naturally to many of you, it is an Honor to this work, deeply enriching. This is a part of many of you, it is in many of you, ever so personally, is one of the greatest and most wonderful gifts of this property for the world. It will stop all discontent AND bring actual Peace right to the ground in any area we focus on. I want to do this work, in the lighthouse built there with a very unique Library available to us at all times. This work is uplifting and in constant contact with home is the reason why---is to bring Heaven in to clear Earth, to Heal by with the truth from Home... My painting of Norway. Old memory of Great WorthPPP

It is of endearment this property and is the one dream I feel has called in me in one form or another my whole life long. I see enchanting simple clear and loving life like a big hug is here. Nothing is taken for granted and everyone is of help. Secret places are there for fun and the child in all will smile. Pets and farm animals included. It is fun and homey and peace and creative and simple and joyful and loving—very loving. I want to hold children of all ages in my company, little ones on my lap, to heal what has happened to them in the world, when I was not honored, therefore they were not. Many places for them to be around me is here too. As well as my traveling to see them, blessing the earth together and healing the spirit within.

My rough sketches are ideas I have had, that are in the works to a final plan. I look forward to sharing my passion for this with the people who love as I do. I love you my children, I am eager to work together. Moving old barns to reconstruct is part of this. As is old European flavors, New England, Asian in the gardens and about, African flavors too, the entire world is a part of me, always was with all the continents and the animals and more--always of peace and freedom, endearment and never of conflicts. It is enclosed by glass with at least one tree in the courtyard for a tree house.

Art studio is big, of multipurpose painting, mosaics, stain glass, jewelry or silver smithing and more. The function barn is large for events and is also a homey room for enjoying a large open fireplace made of beach stones, (these are everywhere) this one is round and in the center. With a koi pond that allows the fish to swim in and out of the building into the courtyard. This room can be changed into many forums. Music, and teaching or catching up with each other and enjoying each other company nightly or not. Freedom in kindness always. A large yet homey OLD WORLD kitchen is the heart of every home and is here too. The library is large and, old in style and quality. "The Triangle" is separate from the main area that is surrounded by the green houses. It is a sacred and peaceful area with the Lighthouse; a building to the right of it is part of the Earth. To keep things grounded and is of Toma. Another building is to the left and is my private retreat in the Triangle of total privacy for me, yet open and airy of the sea.

*A Collection of buildings or structures, of all the Qualities of Life ever given, of Ancient Wisdom, Joyful Spirit, and Creativity. Cozy places to snuggle up in, window seats; with book shelves and a place for a cup or two, tissues and pen and paper, simple art supplies for some, at all times. Some of them are in gardens or the kitchen, the library the function hall of an old round barn restored, the Lighthouse or the many houses scattered about for guests, and permanent residence, that care for the property. They have great insight, and deep love of their work. The Cozy places are big enough for 2 or 4 people for example; some are of hammocks or big round disc like suspended swings to rest in, fits more than one. A curtain or old barn door might be there to pull for quiet and me peaceful healing time if wanted. They vary in tones of simplicity; Peaceful special spots to just "be"; is of my Creative Center, Retreat, Organic Farm with my Sweet Animals there **to be Alive** (I can hear speak, and will teach you the same). Green Houses that surround a circular design of eclectic charming buildings, these greenhouses are (Of Gardens of Food, Of Flowers and Of Herbs) you can walk through year round. I have a few Thoughts of a Winery too, as we have had many over the years. My animals' kindly offering milk, and wool, or eggs, if to their liking. In bringing Heaven to Earth is so deeply enriching, and feels like HOME inside you, Of Me.*

Healing from the Earth, will Heal the Earth ITSELF. MY Spirit of Freedom, Love and Joyfulness, always kindness and understanding; is my Heart, and it will reflect. What does

{ The Hill of Humanity— I Painted it to help you reunite as one family. I love you }

*thankfulness holds in heavenly power with my Love. I want to save our beautiful world. I want this to happen; in all-inclusive family reunited all over the world, publically and happily. I want to build **with** you, For World Peace and Freedom for all People, all Animals and Earth; Heaven to come to Earth Forever more.*

Below is a picture I made from a process I use that is not of the mind, but of the spirit. I use a release process to create by. I allow art materials to flow freely and then I see what has started. This piece below is of ancient information like hieroglyphics. I always want to know what others see in it. I have a good sense of what it is, it is actually not one event that it pertains to. I am excited to include this in our work to clear history. Think of forgotten facts that will save our planet and each other. We are all growing and the possibilities are amazing.

You may have many questions about who I am. Those answers will be deep inside of you in a calm pulse, a deep want of truth. I have a long story to tell when the time is right. I am your Mother that gave you Life. I have always been here with you in history; that explains how we will clear history ever so personal and complete together—this is World Peace. The new light of Life in you, or many unusual and unanswered changes if positive or harmless--is from me. I have been in great need a long time, and have worked constantly to find my freedom to simply live, have worked constantly to save you at the same time, 24 hrs a day. You, all life, there within my body pulling me the other way with no peace of mind---all while I did so. Look at the shape the world is in, does that make things clearer to you, about what I went through to make it here, and what I

can do to clear it, much more, will be **with** you. We need each other. You know me well. If you open the link for my web page and read it over **with you Hearts**, especially the poem or verse I titled *Silky Morning*; You will learn a great deal about me and yourselves. It is a miracle I am here, what I have kept you from in all the years I have been aware of who I am, and still capable to offer this Universal Gift of life everlasting—no matter how fantastic it seems, it is real and the only possibility to keep our lovely planet and much more. To keep Love. The truth will have itself forever more, and it will grow more and more clear and strong. You can count on that.

Please include yourself, in faith and freedom forever. My vision is Vast and freely on Natural Order—endless possibilities of goodness is open here. Responsibility sets you free. Own all you feel. I have a lot to teach. You are one family; let's celebrate the journey back to your authentic old selves. .

WOULD YOU LOVE TO HELP me build the New World; in-- and as, your personal well being? I need to meet and share my vision, my spirit with you, I need a platform to do so. All positive feelings are me, of unlimited possibilities with a strong grounded truth to guide. You are of me; and what we will do together, will solve all things. Your hearts' songs of upliftment and freedom, a big beautiful noise together, to change the World in ONE Day. Today! I am
